

## Sample Selects Available on Consumer Lists

One of the smartest things you can do in direct marketing is to narrow your list as much as possible, so you are ONLY reaching your ideal prospects. You are not going to waste any time, stamps or paper sending to the wrong people. Below you will find "some" of the selects available on a Consumer list. These do vary so be sure to ask your list broker exactly which selects are available for your list. Actually, there are hundreds more available, but not all are available on every list. That's why it's important to discuss your project in detail with your list broker so they can help you decide on the best list for your goals and expectations.

### **Household Selects**
